APPLICATION FOR STANDARD PLAN APPROVAL
SIDEWALK, TRAIL, OR OTHER LINEAR IMPERVIOUS SURFACES

Applicability Criteria

1. Disturbance will be for construction of a sidewalk, trail, or other linear impervious surface with total disturbance not to exceed 5.0 acres.
2. No greater than 1.0 acre disturbed at any one time throughout the course of construction.
3. Within the disturbed area, the pre-development land use is not classified as forest.
4. For project site locations within an area previously managed for stormwater quantity and quality under an approved Sediment and Stormwater Plan, the post construction condition meets the original stormwater design criteria.
5. For project site locations within an area previously unmanaged for stormwater quantity and quality under approved Sediment and Stormwater Plan, one of the following is met:
 - a. Comparison of the existing curve number (CN) based upon the Department's 2017 aerial photography to the proposed CN after construction results in less than one whole number change in the CN, or
 - b. No new impervious area is proposed as a result of construction

(NOTE: If choosing 5a, provide proper documentation)

Site Information

Contract Name: _____ Contract No.: _____

Site Location.: _____

Disturbed Acres (nearest 0.1 ac): _____ Proposed Impervious Area (sq ft): _____

Total Acres (nearest 0.1 ac): _____

Pre CN: _____ Post CN: _____

Approval Information (for office use only)

Approved by: _____ **Date:** _____

Title: _____ **Expiration Date:** _____

Standard Conditions

1. Impervious surfaces until be graded to sheet flow to previous areas to the maximum extent practicable.
2. Stabilization of disturbed non-active soil areas with seed and mulch or seed and stabilization matting will occur within 14 calendar days or as needed so that no greater than one acre total will be disturbed at any one time.
3. Erosion and Sediment Control practices shall be used as shown on the plan.
4. Projects exceeding 1.0 acre of total disturbance require submittal of a Notice of Intent (NOI) for Stormwater Discharges Associated with Construction Activity. Submit required information so that a NOI can be processed.
5. Approval of this Standard Plan does not relieve the applicant from complying with any and all federal, state, county or municipal laws and regulations.

Stabilization Conditions

1. Following initial soil disturbance or redisturbance, temporary or permanent stabilization with seed and mulch shall be completed within 14 calendar days to the surface of all disturbed areas not actively under construction.
2. Specific stabilization recommendations may be found in the DelDOT Standard Specifications and/or the Delaware Erosion and Sediment Control Handbook, 3.4.3 Standard and Specifications for Vegetative Stabilization.

Applicant Certification

I, the undersigned, certify that the information supplied on this Application for Standard Plan Approval is accurate, the proposed land disturbing activity meets the criteria established, and all conditions of this Standard Plan Approval will be met by the applicant, contractor and owner during construction and post construction.
